WORK EXPERIENCE

Software Developer (Intern) ZedBlock IT Services and IT Consulting

03/2023 - Present

Gurgaon, India

Zedblock creates a streamlined process integrating modern-day technology to aid our clients and fulfill their business goals.

Achievements/Tasks

- Developed a web applications using NextJs and NodeJs
- Fixed Bugs in UI and Backend
- Created and Deployed AI Agents using FastAPI and Langchain Framework in Python
- Implemented Websockets for two way communications between users and agents

PERSONAL PROJECTS

U-Sell (Product Selling Platform) (02/2022 - 03/2022)

- A Platform for selling used products in a university, developed as part of Science Day Competition
- Developed using React JS for Frontend, backend is implemented in REST API using Express JS and Node JS
- Used JWT Tokens for user authentication
- Web Application is fully responsive and features like rating, reviewing, searching, filtering and bookmarking the products are implemented

Flood Prediction using Machine Learning (08/2022 - 12/2022)

- Leveraged Python to conduct comprehensive data analysis and construct machine learning models for valuable insights and predictions
- Synthesized insights from academic papers (e.g., "Journal of Environmental Management, 2021") for data-driven decisions.
- Executed a diverse range of machine learning and deep learning techniques on complex datasets to extract meaningful patterns and predictions.
- Demonstrated proficiency in key data science libraries and frameworks, including Pandas, NumPy, TensorFlow, scikit-learn, and more, to facilitate data manipulation and model development.

EDUCATION

B.Tech in Computer Science and Engineering Central University of Haryana

08/2020 - Present

Mahendragarh, Haryana, India

TECHNICAL SKILLS

Python

C++

OOPs

ReactJS

Java Script

HTML5

Machine Learning

Data Structures

Algorithms

NodeJS

Git/GitHub

Linux

SQL

Langchain

Data Visualization

Docker

ACHIEVEMENTS

Core Member in Google Developers Student Club CUH (08/2023 - Present)

Google Developer Student Club @ CUH aims to educate people with ANY level of programming experience who are tech savvy and enthusiastic about technologies by providing a peer-to-peer learning environment.

Core Member in ByteCode Learners Community (02/2021 - 03/2023)

ByteCodeLearners is a group of students working together with patience and enthusiasm to create something new. We organize coding sessions, competitions, group projects for juniors and help them to explore the diverse world of technology.

Achieved 5 Star in SQL and Python in Hacker Rank

Solved 190+ problems on Leetcode
